2025 PRODUCT PRESENTATION

« Founded in 2013, **Muratto** is a leading Portuguese brand celebrated for its expertise in **Natural Surface Design**. Passionate about **natural materials** and **sustainability**, we create innovative wall and ceiling claddings that transform spaces with timeless elegance.

At Muratto, we believe in **rethinking materials** to **honor nature**. Using eco-friendly options like cork, silicates, and recycled components, we craft surfaces that combine **design, functionality, and environmental responsibility**.

Guided by our values - Natural Lifestyle, Design, Sharing, and Interior Comfort - we merge artistry and sustainability to deliver **solutions** that enhance interiors while respecting the planet.

Through **innovation**, from advanced technical features to sustainable processes, creating surfaces that **inspire**. Behind every piece is a passionate team united by a vision: to breathe new life into interior design and celebrate nature's beauty.

Join us as we rethink materials and shape the future of design. »

VASCO BARROS, MURATTO CEO

At Muratto, we believe **exceptional design** and **environmental responsibility** can - and should - go hand in hand. **Sustainability** is at the core of everything we create. Our products are crafted to inspire spaces through **innovative processes** and **eco-conscious materials** that honor nature's balance.

Cork, our signature material, is 100% natural, renewable, and recyclable. Harvested through a gentle process that preserves the health and longevity of cork oak trees, cork ensures that forests - the montados - thrive as vital ecosystems, supporting biodiversity and capturing CO₂. By placing cork at the heart of our designs, we contribute to preserving these essential habitats and supporting the communities that rely on them.

Our commitment extends beyond cork. Each collection thoughtfully incorporates a variety of **sustainable materials**, such as 3D silicates and recycled EVA foam and textile fibers from the sports shoe industry. Using innovative production methods, we embody a seamless fusion of **elegance** and **environmental responsibility**.

Guided by a **zero-waste** philosophy, we repurpose every fragment of material, minimizing waste and **reducing our carbon footprint**.

Muratto's approach to design transcends aesthetics - it's about crafting spaces that feel **natural, comfortable**, and enduringly **beautiful**. Every piece we create transforms interiors with purpose, elegance, and respect for the **world we share**.

DESIGN BLOCK BEEHIVE

DESIGN BLOCK BEEHIVE

ABOUT BEEHIVE

The Organic Block Beehive takes form through the organic evolution of multiple geometric planes - a harmonious blend of nature and contemporary design, a modern ode to the simplicity of a honeycomb. The intricate pattern, seemingly in motion, is meticulously balanced, infusing the atmosphere with vitality, energy, and emotion. Each plane contributes to the natural and dynamic continuation of this unique design, creating a captivating visual symphony.

DESIGN BLOCK CHOCK

ABOUT CHOCK

With four diagonal lines emanating from the center of each square, Design Block Chock is akin to four windows opening in diverse directions. Purposefully crafted for maximum visual impact in larger areas and expansive rooms, each of the four elements maintains its individuality while seamlessly contributing to the overall effect. The elegance lies in the simplicity of the geometry, where the four sections harmonize to create a captivating and unified visual masterpiece.

DESIGN BLOCK MINICHOCK

ABOUT MINICHOCK

Crafted from four smaller squares intersecting at varied angles, Design Block Minichock is tailor-made for intimate spaces. The mosaic pattern, formed through the repetition of these shapes, brings simplicity to life, creating an environment that is not only expressive but also exudes energy and playfulness. In the world of design, even the smallest squares can make a resounding impact

DESIGN BLOCK PEAK

muratto[®]
natural surface design

DESIGN BLOCK PEAK

ABOUT PEAK

Design Block Peak stands out with its composition of four asymmetrical triangles converging at a peak within each square. The repetitive pattern not only reflects ambient light but also conjures the majestic imagery of mountains. Taking cues from nature, Peak employs color mixing and matching to craft diverse moods, making every installation a unique elevation of asymmetry and natural inspiration.

DESIGN BLOCK SENSES

ABOUT SENSES

Embracing an organic design philosophy, Design Block Senses artfully arranges smoothly curved hourglass shapes in both horizontal and vertical orientations. Drawing inspiration from the undulations of nature, this design adds a voluminous dimension to smooth walls. Senses provides the flexibility to partially or completely cover walls, granting a canvas for both creativity and originality. Let the undulating elegance of Senses transform your space into a haven of organic beauty.

DESIGN BLOCK HEXAGON

muratto[®]
natural surface design

DESIGN BLOCK HEXAGON

ABOUT HEXAGON

Much like the raw material cork, the Design Block Hexagon is a geometric shape inherent in nature, symbolizing communication, balance, and togetherness. This hexagonal design serves as an interface connecting each tile, fostering new interior shapes and culminating in a unique and harmonious result. Inspired by the natural harmony of geometric shapes, Hexagon seamlessly integrates into your space, creating an environment that resonates with balance and interconnected beauty.

DESIGN BLOCK DROP

ABOUT DROP

Inspired by the fluid motions of nature, Design Block Drop embodies the lightness and purity of water. This piece seamlessly marries fluid dynamics with an organic surface, creating a three-dimensional masterpiece that comes to life through its volume. The pattern of Design Block Drop has the enchanting ability to transform any wall into a visual cascade, capturing the essence of a real waterfall and infusing your space with natural elegance.

DESIGN BLOCK KUBUS

ABOUT KUBUS

Geometric shapes in décor have a versatile appeal, adapting to contexts ranging from traditional to retro and bold to cool. Design Block Kubus stands as a visually impressive geometric marvel, showcasing its three-dimensionality and, notably, its natural composition. The smooth yet distinct lines on its sides enhance the exclusivity of this piece, making it the unequivocal focal point of any room it graces.

DESIGN BLOCK EDGE

ABOUT EDGE

Design Block Edge showcases a bold geometric design, divided into four distinct sections. Its clean lines and organic texture create a striking visual impact, adding modern elegance to any space. The textured version, featuring cork scraps inserts, offers a more rustic yet still sophisticated option, blending natural warmth with refined design. Perfect for both large and small installations, Edge brings a unique combination of simplicity, sophistication, and versatility.

COMPLEMENT SQUARE MOSS XL

muratto[®]
natural surface design

COMPLEMENT SQUARE MOSS XL

ABOUT SQUARE MOSS XL

Born from our deep passion for the interplay of preserved natural moss and cork, Moss Square XL stands as a testament to the harmony between nature's greenery and the timeless elegance of cork. Designed as a complement to pair seamlessly with Peak, Chock, and Minichock, Square Moss XL brings the freshness of nature into your space, creating a captivating blend of organic beauty and refined sophistication.

MATERIAL

Solid cork sheet base filled with 100% naturally preserved moss. Due to the preserved moss' extension to the piece's ends, it is recommended to use it when combined with the Organic Blocks Peak, Chock and Minichock. Intended for indoor use only. Maintenance-free.

CORK STRIPS FLOW

ABOUT FLOW

Discover the art of movement with Cork Strips Flow, where rigid horizontal lines gracefully transform into free-flowing shapes. Exquisite yet playful, Flow adds a touch of irreverence by escaping the conventional confines of lines. Originally designed to complement Cork Strips Infinity, Flow can also stand alone as a continuous pattern. Its purpose is to craft walls that are ageless, elegant, alive, and in constant motion. Embrace the interplay of light and shadow for intriguing visual effects with the right illumination.

CORK STRIPS SPHERE

muratto[®]
natural surface design

CORK STRIPS SPHERE

ABOUT SPHERE

The horizontal stripes that make up the Cork Strips Sphere are the perfect balance of simplicity and comfort. Its lines form a continuous pattern, but its large centre sphere gives it a three-dimensional appearance as well. Amazing light shows and optical illusions are produced as a result. It was designed as a continuation of Cork Strips Infinity because the two parts may be put together on the same wall to make an unlimited variety of patterns. However, it can also be used on its own. This makes it possible to design distinctive rooms that, because to their strong lines, seem to have no end.

OUTROCK BRICK

ABOUT BRICK

Brick is a simple yet impactful tile design that captures the timeless grandeur of architectural forms, reminiscent of a pyramid's majesty. Its bold, three-dimensional structure and repeating geometric pattern make it an excellent choice for crafting striking and dynamic wall surfaces. When paired with thoughtful lighting, Brick transforms spaces by adding depth and dimension through a captivating interplay of light and shadow, elevating the ambiance to new heights of sophistication.

MATERIAL

Made from a combination of mineral silicates, post-consumer textiles from the sports shoe industry, and color pigments. Molded into shape and protected by a finish coating.

OUTROCK HEZIE

ABOUT HEZIE

The hexagon, formed by interlocking triangles, symbolizes harmony and balance, reflecting the interplay of complementary energies. Hezie reinterprets this classic shape with varying thicknesses across the tile, adding dynamic depth and texture. This unique design creates captivating optical illusions and offers versatile wall arrangements. When paired with lighting, Hezie comes to life, casting dynamic shadows that highlight its geometric beauty and enhance the space.

OUTROCK HEXQU

ABOUT HEXQU

Inspired by the timeless symmetry of the hexagon, Hexqu takes this shape to a new dimension. With its higher edges and sunken center, the design converges inward, creating a striking three-dimensional effect that adds depth and volume to any wall. The unique surface variation allows for a variety of bold and creative arrangements, offering endless possibilities for dynamic compositions. When illuminated, Hexqu comes alive, with light accentuating its intricate form and casting captivating shadows that enhance its geometric beauty.

OUTROCK TALE

ABOUT TALE

Like a story unfolding, Tale tiles create a seamless and fluid wall composition through their elegant curvilinear forms. The hourglass shape, combined with a three-dimensional design, evokes a sense of movement, continuity, and comfort, making it ideal for creating dynamic yet calming spaces. Each tile flows into the next, telling a visual story that transforms any room. When paired with lighting, Tale reveals its true beauty, as light plays across the surface, casting a unique glow that enhances the curves and depth of the design, adding an inviting atmosphere to the space.

ABOUT PRIMECORK ENGRAVING

Primecork's two ranges are remarkable in that they have a classic and timeless appearance while also being contemporary. With the "Engraving" add-on, you can take that one-of-a-kind look to a whole new level of wall decor!

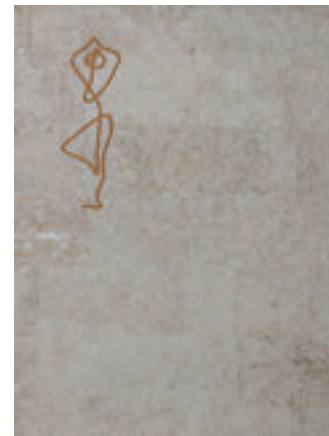

Transform your walls into personalized masterpieces with Primecork's "Engraving" add-on! This exclusive feature allows you to customize each piece individually through precise CNC drilling, taking the classic and timeless appearance to new heights of contemporary wall decor.

Here's how to make it yours:

- 1. Send us a Vector File:** Provide a vector file of your design with lines at least 3.5mm thick.
- 2. CNC Drilling:** Our cutting-edge CNC drilling ensures precision with 2mm drilling depth.
- 3. Color Choices:** Opt for any color from the Classic and Premium ranges for 4mm thickness.
- 4. Seamless Integration:** After drilling, the lines seamlessly match the natural cork color.

Ready to make your vision a reality? Our team will review your design for final approval, ensuring a perfect blend of creativity and craftsmanship!

EVA DECO + NIKE GRIND COLLECTION

muratto[®]
natural surface design

EVA DECO + NIKE GRIND COLLECTION

ABOUT EVA DECO + NIKE GRIND

The EVA Deco + Nike Grind collection is made using recycled EVA foam from Nike’s footwear manufacturing scrap, resulting in a versatile material for DIY projects. Nike Grind makes up at least 75% of the material in these multi-purpose sheets, which are available in a range of colors and include several unique designs combining EVA foam and cork. This collection offers many creative possibilities and continues Muratto’s commitment to responsibly use recycled materials in our products.

MATERIAL

Granulated EVA (Ethylene-vinyl acetate) foam from footwear midsoles, or EVA+cork (depending on the pattern), in various color combinations. Sheets are finished with a water-based varnish coating. Material is composed of at least 75% Nike Grind.

EVA sheets: Taurus / Gemini / Cancer / Virgo / Libra / Scorpio / Sagittarius / Capricorn / Pisces

EVA + cork sheets: Zodiac / Aries / Leo / Aquarius

TECHNICAL PROPERTIES

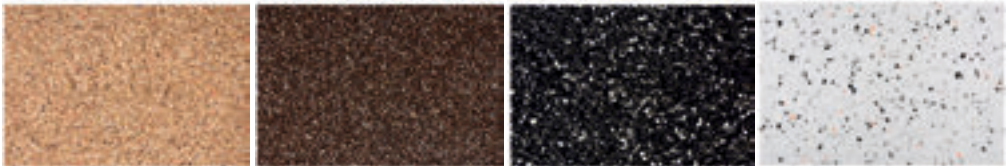

EVA Deco is perfect for use in a variety of applications, such as wall coverings, furniture, decor accents, and more. Key characteristics of EVA foam include:

- Aesthetic enhancement
- Flexibility
- High shock absorption
- Resistance to stress-cracking
- Low liquid absorption
- Thermal insulation

* The EVA DECO + NIKE GRIND collection consists of patterns made of cork, EVA or a combination of the two, so the patterns will always vary slightly from one production to the next. This is due to the EVA component being derived from the recycling of sports industry (Nike Grind), which implies color and shade variation.

EVA DECO + NIKE GRIND COLLECTION

GET CREATIVE!

The possibilities for creating DIY products with EVA DECO + NIKE GRIND sheets are endless and only require creative thinking - to assist in this process, the QR code present on the packaging and on the website, www.muratto.com, can be used to access PDF molds in a variety of shapes and application suggestions.

CORK BARK VIRGIN TREE

ABOUT CORK BARK VIRGIN TREE

The surface texture of Cork Bark Virgin Tree, harvested from cork oak trees, is rugged, high-contrast, and shaped by weather. Blending the grandeur of natural cork with the lush green of preserved moss, we craft rustic planks that captivate with their visual allure. With a substantial height and authentic appearance, the Virgin Tree planks are perfect for fashioning distinctive and charming environments. Welcome nature into any space with these extraordinary planks.

MATERIAL

Panels made of lightweight poplar wood - PEFC and CARB II / TSCA VI certified, covered with pieces of the natural cork oak tree bark, and preserved moss – pre cleaned and individually applied by hand. Protective finishing, with or without color pigments. Intended for indoor use only. Maintenance-free.

SIZE

XL PRIME PANELS COLLECTION

ABOUT XL PRIME PANELS

XL Prime Panels seamlessly blend the features of cork and wood, resulting in a technologically advanced product with exceptional functionality. Ideal for covering walls, ceilings, furniture, and serving as space dividers, XL Prime Panels redefine versatility in design. With Muratto's exclusive CLIP 2 FIX® installation system, these panels are easy to handle and install, offering a velvety and sophisticated touch to any space.

SIZE

1480 x 600 x 13 mm

MATERIAL

Panels made of lightweight poplar wood - PEFC and CARB II / TSCA VI certified, with a natural cork veneer layer (Primecork veneer), natural or with color pigments, and an acoustic cork backing membrane, as well as a surface finish coating.

PANEL COMPOSITION

- _ 2mm acoustic cork backing membrane
- _ 8mm lightweight poplar wood - PEFC and CARB II / TSCA VI certified
- _ 3 mm cork veneer layer
- _ CLIP 2 FIX ® (included in the panels)

INSTALLATION

CLIP 2 FIX ® (exclusive Muratto's easy panel mounting system)* // Glue

* The **XL PANELS** collection includes **Muratto's exclusive installation system, CLIP 2 FIX**, which allows you to avoid the use of glues and relocate the panels in the future if necessary, without damaging the wall/ceiling - please inquire more information.

HOW TO CUSTOMIZE YOUR XL PRIME PANEL

All XL Prime Panels share a consistent core composition, featuring a natural cork veneer layer, an acoustic cork backing membrane, and a surface finish coating. However, the appearance of the panel surface is fully customizable, allowing for a unique touch to each project. The customization process involves the following steps:

- 1. Choose the cork veneer.
 - 2. Select the final color of the panel, either natural cork or black cork, in accordance with the chosen veneer.
- Choose from a range of color options, with or without additional color finishing.

While the standard cork veneer is 'Primecork veneer,' bespoke options are available, including a selection of other veneers to suit your individual preferences.

K-SHEETS COLLECTION

ABOUT K-SHEETS

K-Sheets embody natural beauty and versatility. Their organic charm and intricate designs make them ideal for any space, bringing warmth and elegance effortlessly. K-Sheets can create decorative decals, add a unique touch to decor accents and furniture, enhance accent walls, and more. Each self-adhesive sheet is treated with a protective coating, showcasing the unique patterns and earth tones of natural cork in various shades without any modifications.

MATERIAL

Handcrafted natural design cork sheets, treated with a protective coating and with a self-adhesive backing.

SIZE

150 x 150 x 150 + 300 x 300 x 300 (7-13 thickness) mm

INSTALLATION

glue / DIU purposes

FEATURES

Self-adhesive backing for easy application. Natural cork design for a stylish and eco-friendly look. Treated with a protective coating for enhanced durability. Made from natural, renewable cork. Eco-friendly and recyclable.

USAGE INSTRUCTIONS

Preparation: Ensure the surface is clean, dry, and free of dust or grease.

Application: Peel off the backing paper and carefully position the K-sheet on the desired surface.

Press: Firmly press the sheet starting from the edge to the other to avoid air bubbles.

CARE INSTRUCTIONS

Clean with a damp cloth. Avoid using harsh chemicals.

CLIP 2 FIX® EASY PANEL MOUNTING SYSTEM

muratto[®]
natural surface design

CLIP 2 FIX® EASY PANEL MOUNTING SYSTEM

ABOUT CLIP 2® FIX EASY PANEL MOUNTING SYSTEM

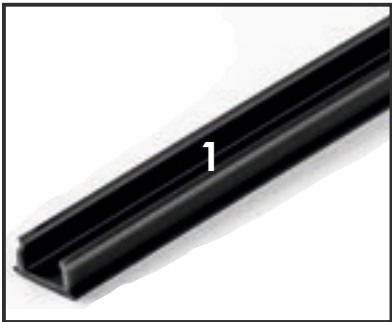

CLIP 2 FIX® is a concealed fixing system designed for effortlessly installing panels and tiles on interior walls and ceilings, eliminating the need for adhesive.

This mounting system consists of two key components: specially designed profiles and exclusive connectors (clips). The profile is applied to both the back of the panel and the wall substrate. The connectors seamlessly join these profiles, providing a secure and durable installation.

Compatible with a variety of panel products, including plywood, MDF, plastic, fiberglass, HPL, sandwich panels, and composite panels, CLIP 2 FIX® offers versatility.

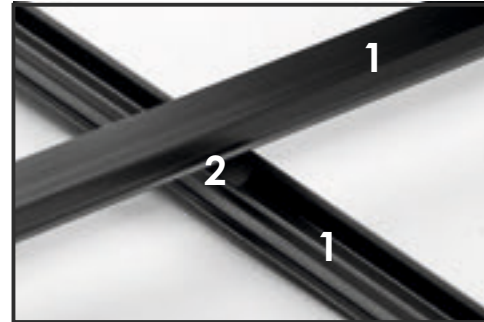

COMPONENTS OF CLIP 2 FIX® EASY PANEL MOUNTING SYSTEM

1. Special design profiles

2. Exclusive design connectors
(clips)

3. Final installation: the two profiles fit
together using the connector (clip).

HOW WE OFFER THE SYSTEM CLIP 2 FIX®

Packs of: 20 profiles of 1470 mm length, 100 connectors/clips and 100 screws.

CLIP 2 FIX ® EASY PANEL MOUNTING SYSTEM

WHY TO USE CLIP 2 FIX ®

The CLIP 2 FIX ® easy mounting system has numerous advantages for tile/panel installation, including the following:

- _ Quick setup (mount and connect);
- _ Hidden mounting system (no visible screws);
- _ Simple mounting adjustments (no need for exact connector positioning because the system allows for panel movement in both horizontal and vertical directions);
- _ Solo attachment (the connector can be used by itself (attached to the substrate with a screw for 'solo' product placement - ie: those that are not being installed in a 'system' of multiple pieces/panels);
- _ Allows for simple installation without the use of glue;
- _ It is reusable (connectors and profiles can be easily disassembled and reassembled);
- _ Optional acoustic membrane (if your wall/ceiling requires additional acoustic performance, this system allows you to place an acoustic membrane between the panel and the wall/ceiling);
- _ Cost-effective solution (significant installation savings and efficiencies);
- _ Sustainability (this product is entirely made of recycled materials).

WHEN AND WHERE TO USE CLIP 2 FIX ®

CLIP 2 FIX ® can be used for mounting panels and tiles to walls, ceilings, or other fixed objects, in places such as:

- _ General commercial areas;
- _ Retail spaces;
- _ Residential applications;
- _ Exhibition booths and showrooms;
- _ Hotels (guestrooms, lobbies, bedrooms, etc.).
